

## THE TWIN PARADOX (A Short Tale of Time Travel Book 3)

From Nick Reynolds The Author of THEORETICAL - The Trilogy & THE GRANDFATHER PARADOX THE TWIN PARADOX John and Jeffrey Mitchell are identical twins and fellow astronauts. However, when one of them is chosen to pilot a deep space mission, while the other one is to remain on earth, the vagaries of time and space will leave them with a surprising outcome. ALSO BY NICK REYNOLDS THEORETICAL When Dr. Simon Taylor claims to know the secret to time travel, is his claim valid, or only theoretical? THEORETICAL 2 An attempt is made to duplicate Simon Taylor's trek into the past, in the hope of preventing a tragedy. However, the past is the past, and sometimes even the best of intentions can cause harm. THEORETICAL 3 A time traveler longs to return to his own time, but lacks the ability to make it happen. However, when an unlikely ally makes a breakthrough, our time traveler discovers that the most dangerous travel lies along the pathways of the heart. THEORETICAL - The Trilogy Contains all three short tales plus, exclusively, THEORETICAL Timeline THE GRANDFATHER PARADOX A man is sent back in time with orders to kill his own grandfather before he can sire children. If successful, will he then cease to exist, or is the past far stranger and durable than imagined? THE GRANDSON PARADOX When a man travels backwards in time to kill his own grandfather, will he succeed, or has he bitten off more than he can chew?

experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment. An award winning Realtor and "Hall of Fame" award of excellence. I will only take on the new business that I can handle. I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell. Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor" There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
