

The Noowal Sales Log

WARNING: May contain sexual content. Noowal is a planet with two brainy types of entities. The Wontranas are clearly in charge, with the women taking the leading roles and the men allowed to help if they remember their places. The Beeghys are artists and technicians and often supply the intellect that allows the Wontrana women to succeed. Noowal is known as the universes junkyard. Spare parts and discarded goods are brought to Noowal for refurbishing and are offered to entities around the universe via the quarterly catalog and the Universal Voice System. Other goods are created on Noowal for the planets customers. In 2125, the manager of the Noowal Reclamation Bureau asked her senior sales managers to write down their reminiscences of their years selling goods to buyers at far-flung places such as Clarkl, Farnoll, and Drintde. Of course, as with any junkyard, the primary interest of the buyers and sellers is romance. A kings mistress may say she wants to talk about new jewels, but she is primarily interested in keeping the affections of her lover. The clever and kind sales managers at the Bureau always know this.

Home Home Search Mortgage Information Buyer Information Sellers information Contact Me Green Blog Events Calendar Use our Mapping Search to find listings in a certain area. Then get step by step directions. We want the buying process to be stress free and simple. Try our easy to use Search! Use our My Home Hunter feature to be notified when your dream home hits the market. **Barrie's Green Realtor Karen Fox** has been selling real estate for over 23 years in the Barrie area. She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. **Why use a "Green Realtor"** There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of

energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency.
