

The Isle of Osiris: A Jamie Poole Diary (Jamie Poole Diaries Book 1)

Two women. Two tied destinies. Two millennia. One enigmatic sword. My name is Jamie Poole, and I'm destined to help the Departed. Yeah, I hear dead people. I'm a kid from a single-parent home in Small Town, USA. All I want is outta here, go to college, and see the world. Dad, who left when I was a baby, is an archaeologist. He sends books and pictures but never tells me about himself. When I saw a statue bearing the same sword Dad found in Egypt I knew I needed his guidance. Then a ghost told me the sword's name: Lumen. I had to find Dad. Mom wouldn't help, but I'm determined. I found him! We had lots to discover about each other. While we did, we resurrected an ancient Druidess named Eliyana who owned Lumen. Why was Lumen in Egypt if it belonged to her? Did I mention it was forged of a mysterious alloy? As we unraveled those mysteries things got weird. You can't resurrect someone without consequences. The veil protecting our world from the Otherworld ripped. Think you can imagine the havoc? You've no idea. How did Eliyana react to reawakening? She fled. Can she survive here? Will I find Eliyana before disaster strikes? It does when people find themselves out of Time. Those dead people I hear? Eliyana's clan. Killed unjustly. Lumen empowers its owner, but she's gone and Lumen with her. How can I stop their plea for justice? Her destiny is to lead them. Time can be fixed. But is it too late? Can I restore the veil before danger crosses the Otherworld's threshold? Follow me in *The Isle of Osiris*, first in a series of Diaries as I enter a supernatural world steeped in Celtic myth that becomes more real than our own.

There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
