

Brain Drain

This novel brings a breath of fresh air to the hard science-fiction genre. The science is credible and characters are well developed and believable. We are plunged into a world of deceit and manipulation, where Alien pirates and outlaws compete to steal the intellectual resources of Earth. The Aliens are intrigued by how much profit they can make from stealing and selling Artificial Intelligence, ideas and the hi-tech devices the clever Earth monkeys have created. As Aliens and Earthlings meet, they find they are more similar than they would like to think. Indeed some humans are genetically pure descendants of the Founder Race, from which they've all evolved. Both sides need to learn about each other and that process proves to be equally fascinating and frightening for both parties. A classic story of good and evil evolves while most of humanity is unaware of the Alien invasion and that the pirates plan to blow Earth up when they have finished with it. The race against time and the manipulation of science to prevent this destruction makes for a real nail-biter. The Earth needs to be protected and feint and counter-feint make for a thrilling story with lots of surprises.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out

periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
