

Acturus: Alien Trap

My name is Justin Milkyway, Im just a twenty years old loser, like my band of friends. Im the black sheep of the family, the gay son. In the other side Xante Milkyway, my older brother, the perfect guy who is near to get an amazing career modeling in NY. I admires the perfect body and charming personality of my brother, he is fucking perfect, Maybe I love him? I do. So I did everything to help him when he got kidnapped in the woods, by hot men who looked like models of each part of the world. But suddenly... Darkness. I woke up to a white room. Pure white. White like the whitest white paint was covering the room. There was a single window in the room. I wasnt tied down but I knew that something was odd about this place. The fluorescent lights and the bright white. It was so bright it kind of hurt my eyes to be honest with you. People didnt live in this kind of brightness. I had to literally blink my eyes a couple times. My eyes struggles to adjust to how white the room was. Where was I? I was panicking. There was one door. I made my way to it to see that it was locked of course. I had no doubt that the same people that had taken my brother had now taken me as well. Why were they after him? I was the one who got in trouble all the time. Xante didnt even have any friends. He kept to himself. Maybe it was some crazy stalkers finally pissed off that Xante wasnt giving them the time of day. Yes. That was it. It had to be some crazy stalkers. I realized there was something else in the bright, white empty room. A window. It was a thick window kind of like an airplane window. It had similar proportions to that kind of window as well. You wont believe what I saw outside of this window. You wont believe what I saw. My heart dropped. I literally fell to my feet. I was scared out of my fucking mind. Space. I saw fucking space outside. And this was when I realized that I was abducted by aliens. Very hot

There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
