

Dark Ages: Book One: Vendetta

History has repeated itself and the Dark Ages of man are upon us once again. Several hundred years after the end of the worlds second ice-age and the near extinction of the human race, mankind is in a state of rebuilding. The technology that we once took for granted, and believed would usher us into the future, has become nothing more than a myth to a species that is once again on the brink of destruction. War looms on the horizon, a war that has been going on since the dawn of creation. Now it would seem that the final pieces of a dark, menacing plan have been put into play, and mankind's darkest hour is at hand. But all this is irrelevant to one woman. Luna Ayala-Kin, Infantry General of the once prominent Tereye army, has embarked on a murderous quest for revenge after having everything that she once cherished violently stripped away. The loss of her young child has driven her to the point of utter madness, and she has vowed to stop at nothing until her blade is coated in the blood of the one that took her daughter's life. Her three year journey has left nothing but devastation in her wake, and still she has not found the answers that she seeks, answers that could lead her to the kingdom of Golgotha, and her quest ends. With hope and sanity rapidly dwindling, at her most vulnerable state, a dark and magical being from her past has offered her the key to her success, at a price that may be too steep. The temptation will change everything. Will Luna be prepared to sell her soul for revenge, or will she continue on her bloodthirsty path of destruction alone, blind, and in the dark.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our

experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment. An award winning Realtor and Hall of Fame award of excellence. I will only take on the new business that I can handle. I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell. Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a Green Realtor? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
