

Deal with the Devil (The Withrow Chronicles Book 3)

Withrow Surrett has two big problems: a vigilante and a villain who keep getting in his way as he searches the small Southern city of Durham, North Carolina, for a vampire who shouldn't be there. Throw in Withrow's mad cousin Roderick, a coven of technopagans, neighborhood kids who stay up late to watch the bogeyman walk down their street, a quest for revenge, hidden history and an unexpected acquaintance from the past and Withrow's having a hell of a time as the self-proclaimed boss of all the vampires around. Withrow finds himself chasing - and chased - down dark alleys, up suburban streets and across ivied campus quads in pursuit of hidden truths and flamboyant foes. Confronting feelings he hasn't experienced in decades, Withrow is forced to question the life he's made for himself. They say no man is an island but can a vampire spend forever alone? Is it possible Withrow has even less control over the world around him than he thought? In *DEAL WITH THE DEVIL*, Withrow tackles all this with his signature dark humor and readiness to fight.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc. Brokerage
