

Training Your Pit Bull (Training Your Dog)

Because it was originally bred as a fighting dog, today's typical American Pit Bull Terrier requires special training and handling by its owner. Canine expert Joe Stahlkuppe advises that not every Pit Bull is right for every home. This breed adapts best to homes where the dog owners maintain a structured lifestyle and regular habits. Although Pit Bulls typically form strong bonds with their owners, they are often aggressive toward other dogs, and sometimes hostile toward human beings they don't know. Stahlkuppe asserts that preventing aggression and fighting becomes a matter of limiting opportunity. He points out many ways and methods for limiting that opportunity, and goes on to offer a wealth of details for training and maintaining a happy, healthy, and friendly American Pit Bull Terrier. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
