

Dream Boy: The nightmare begins

You are hopelessly in love with a girl, but you're also hopelessly out of her league. You are weak, you are poor, your parents are dead. And the last person who understands you is dying. And your worst secret: you murdered another boy. Meet Jake Walker. Awake, he's a clumsy, hopelessly romantic boy who couldn't even tell Claire how much he loves her. Asleep, he has the strange power to make people's dreams--even nightmares--come true. Jake's problem is sometimes he couldn't control the nightmares they tend to overwhelm him, even pushing him to kill another boy. When Nightmare Number 1, courtesy of the very demon that slaughtered Jake's family, finds a way to leak into the real world and puts Claire's life at the edge of the demon's axe, Jake must make the ultimate sacrifice to save her and everyone else. Find out the unspeakable things Jake does in Dream Boy.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the home's potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
