

Stories From Crown Comics #4: Classic Comics from the Golden Age

The 1940s saw hundreds of comic book publishers come and go, with thousands of heroes and villains. For every name that is still remembered today there were a dozen forgotten, except maybe by a young boy or girl who will never forget that one comic, that one story. Such was the magic of the Golden Age of comics! Crown Comics was one of the smaller publications, but that makes this reprint all the more enjoyable, and the more important. Now you can enjoy again or, for the first time the colorful characters, interesting plots and amazing adventures of decades past, with these public domain reprints. This book contains the full issue Crown Comics #4, not seen in print for over 65 years! Be sure to check out all the great full-color comic reprints from Calumet History and Hobby!

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
