

Holyfire: A Brimstone War Novel (Brimstone War Novels Book 2)

Once there was a war in heaven. Then there was a war in Hell. Now the war has come to the surface and no one is safe. Demons fighting demons. Angels fighting angels. Humans caught in the crossfire. And there is only one who has the strength, the will, and the heart to save them all. Willamena, the daughter of the All Father and the last of the Lilin, is the rightful Queen of Hell. Las Vegas is a city that never sleeps, it was the safe haven of the succubae and so many other supernaturals, but now it, along with the rest of the surface world, is at risk. Billie must build her army, finding a way to bring angels and demons to the same side, in order to win the war and save her home, her family, and herself. Her heart is torn in many different directions by the men she loves and has loved. But she will have to find the hidden power inside her and guard her heart if she has any hope to survive, let alone win.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle." "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
