

Our Immortality (Classic Reprint)

Excerpt from Our Immortality
O suffering and still fearful peoples; O torn, shaken, overburthened Earth; minds distraught and searching unsteadily amid the ruins of defeat and victory! Is it possible to assemble useful and far-reaching thoughts, - to present them coolly? Possible? Nay, is it not, beyond question, necessary? - our world having slid into a Valley of turmoil and distrust where the momentum of vents is become a most unsafe reliance. Clearly we are in urgent need of rescue from the consequences of some earlier fault, some omission, - some failure to grasp opportunities for betterment, - which to remedy, not passion, sentiment, ancient faiths and usages, nor single-minded ambitions seem competent. Reason alone remains. And this is an implement that we have worked with oftener and ever oftener as one century has succeeded another. Surely it is possible that an implement so peculiar to our own estate and progress will now save us in our need; neither can such an implement destroy the good in anything that we hold dear. your dream home hits the market. Barrie's Green Realtor Karen Fox has been selling real estate for over 23 years in the Barrie area. She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
