

Selections From the Phrenological Journal: Comprising Forty Articles in the First Five Volumes (Classic Reprint)

Excerpt from Selections From the Phrenological Journal: Comprising Forty Articles in the First Five Volumes In making the selection, the editor has endeavoured so to diversify the subjects treated of, as to shew, in a forcible manner, the extensive applications of which Phrenology is susceptible to human affairs. There were five principal contributors to the early volumes of the Phrenological Journal, and it was the editors wish to include the most valuable productions of each. Having ascertained, however, that two of the gentlemen were averse from the publication of their essays in the present volume, he has confined his attention to those of Mr Combe, Mr Simpson, and Dr Andrew Combe, among the conductors; with the addition of a few articles contributed by correspondents. She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the

Environment. • An award winning Realtor and • award of excellence. • I will only take on the new business that I can handle • • I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell. • Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a • Green Realtor • There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
