

Real Estate and Its Taxation in Philadelphia: Questions and Answers Relating to a Proposed System of Assessment (Classic Reprint)

Excerpt from Real Estate and Its Taxation in Philadelphia: Questions and Answers Relating to a Proposed System of Assessment

The subject of this pamphlet is of vital importance to every man, woman and child in Philadelphia. It matters little whether the particular suggestions set forth in the following pages are wise or unwise. The urgent matter is that tax-payers, real estate men, builders, members of building and loan associations, and, indeed, all thoughtful citizens, should familiarize themselves with this subject; look into it carefully, each from his own point of view; and discuss it in public and private. If this is done a proper solution of our present difficulties will soon be forthcoming. To aid in such intelligent study and discussion, I gladly take the opportunity of giving publicity to what I know to be a careful, conscientious and informing study of methods of assessing real estate for purposes of taxation. I appreciate very deeply the public service rendered by Messrs. Arthur Edwin Post and Robert Dunning Dripps in the preparation of this pamphlet. About the Publisher

your dream home hits the market. Barrie's Green Realtor Karen Fox has been selling real estate for over 23 years in the Barrie area. She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
