

## Mel Bay Drummers Cookbook, Volume 2

If you want to learn the art of trading fours, The Drummers Cookbook Volume II will help you put it all together. This book takes you through the entire process, from developing a vocabulary to real world application. Today's working drummers are asked to play fills and fours at a variety of different tempos, each requiring a different vocabulary. The author breaks down the process into three general tempo zones: moderate, bright and extreme. Develop your own musical vocabulary by studying the tools of the trade: uneven note groups, rhythm fragments, implied tempo changes, ghost notes, quarter note triplets, and more. Then put it all together by learning the format for fours. Learn to think in phrases: three beat groups, call and response, and symmetric and asymmetric phrases. Study the standard 32 bar AABA jazz format and learn the how, why and when of trading fours. Finally, all these skills can be practiced with several hundred two and four bar solos in each of the three tempo ranges.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. **Why use a "Green Realtor"** There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. **Quick Search Search Featured Property RE/MAX Chay Realty Inc.
