When you and your child play the Behavior Game, everyone wins! If you're feeling like one more temper tantrum, bedtime battle, or sibling slugfest will put you right over the edge, take heart. Help is at hand. For more than twenty years, clinical psychologist and mother of two Dr. Paula Stone Bender has been helping families discover parenting techniques that produce immediate results. Dr. Bender's Behavior Game is hands-on and extensively tested. It lets you use positive reinforcement to achieve the changes you want. Easy-to-use charts, checklists, and worksheets enable you to tailor the program to meet your family's specific needs. Best of all, your child takes an active role in improving his or her own behavior. Complete with the success stories of real families who used these powerful techniques, this essential guide can help your entire family get along harmoniously the whole day, every day. Finally, a practical rule book for parents! Dr. Bender has captured the most tried-and-true research findings and put them into an easy-to-understand guide. She takes the mystery out of being a good parent. -- Mary Arredondo, Ph.D. National School Psychologist of the Year, 1995 A gem of a parenting guide. In step-by-step fashion, it shows you how to combine love and discipline in a way that accentuates the positive and minimizes the negative in parent-child relationships. -- Thomas F. experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment. An award winning Realtor and Hall of Fame award of excellence. I will only take on the new business that I can handle. I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell. Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a Green Realtor? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
