

Satisfaction from Within

For years, author Kelli DeWispelare struggled with body image, an eating disorder, and low self-esteem. As early as preschool, she remembers being uncomfortable in her own body—the beginning of a dark war inside her head that continued until her mid-twenties. DeWispelare wanted to be perfect. And then she found yoga, a practice that empowered and inspired her. In *Satisfaction from Within*, DeWispelare shares a collection of phrases and quotes that have helped her to grow past the negative image with which she was once plagued. Meant to empower, the quotes can guide you as you learn to look beyond the physical body and into the beautiful person who has been there all along. Using DeWispelare's personal story as well as the inspirational words, *Satisfaction from Within* can help you to gain a healthy level of self-confidence, accept that there is no such thing as perfect and move toward finding satisfaction from within. The words you say to yourself and the thoughts you think about yourself are ultimately what you become. Be careful with the thoughts you feed yourself.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. **Why use a "Green Realtor"** There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of

energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency.
