

Pit Bull Garden

This is the E-book version of Pit Bull Garden. This version is all black and white and does not include any pictures. The actual text content is almost identical. Pit Bull Garden focuses on game dogs including such breeds as the British Pit Bull Terrier, the Sporting Staffordshire Bull Terrier, the English Bull Terrier and other Terrier breeds. This includes much new information for the non dog man on game dogs from the past right up to 1990s Europe and particularly the UK and Ireland. The American Pit Bull Terrier is included in this book but mainly in regards to its use after re-importation to Europe in the 1980s and beyond. Extensive sections on badger dogs and rapping dogs are included as well as the comparison of game dogs to fighting dogs such as the Caucasian Ovcharka. If your only interest is of a general nature regarding the American Pit Bull Terrier then this book is not for you. If your interest is in regards to working game dogs either in the pit or in the field then this book will be of interest as most information comes straight from the horses mouth; in other words the dog men. The author also makes it clear in very strong words that he finds dog fighting and badger baiting immoral. However researching a book on game dogs and not asking dog men questions as to their mode of operation and opinion would be analogous to writing a book on poaching and not interviewing poachers. Topics included in this book. What is gameness? A guide to natural and artificial selection. The Birth of the Game Dog. The Old English Bull Dog. The creation of the British Pit Bull Terrier. Dog fighting and rat baiting in 18th and 19th century Great Britain. The Creation of the American Pit Bull Terrier. American legends, the ROM and GR CH dogs. Designer dogs. Badger dogs. The English Staffordshire Bull Terrier. The English Bull Terrier. A comparison of The Pit Bull Terrier to other breeds

including the Japanese Tosa and Caucasian shepherd dogs. The science behind the breeding of game dogs. Brave new world game dogs.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
