

Founding of a Prince (The Royals Book 2)

This is the continuing saga Queen Annaleia and her desperate fight to lead her army to the capital city to take the usurper off of her parents throne. Now that Queen Annaleia and her best friend, Jimmy, have had the maximum training in swords and knives they can at least defend themselves. Anna is now ready to take her army north, with the help of her love, Tarret, her uncle, the Royal Wizard and the captain of her personnel guards. Of course, just because Anna is now trained to defend herself and use some of the mystical gifts that only the elves know about, doesn't mean that Exeter, the usurper, will stop trying to kill her and stop the army. This book is not only about Anna's struggle to take her kingdom back, but it also involves a surprise discovery from the only dragon left alive in the kingdom. That in itself is a hair-raising experience, and one Anna doesn't want to repeat. This book will determine if Anna is able to save the people in her kingdom as well as her friends and her army while wondering what kind of ruler she will become. Will she be as good at ruling as her parents were, or will she just mess up the lives of the people depending on her to save them?

She has an interest in the environment and is passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the home's potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out

periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
