

Risk to Succeed: Essential Lessons for Discovering Your Unique Talents and Finding Success

A NEW BUSINESS PARABLE FOR OUR TIMES According to the laws of the jungle, a baby elephant can survive only if it stands on its own in the first few hours after being born. These laws also apply to your own survival--and ultimate success--in the business world today. From Ricky Cohen, educator, entrepreneur, and renowned CEO of The Conway Organization, comes an inspiring new business parable for our unprecedented times. It is the story of a young elephant named Bella who is not content to move with the herd. She longs to venture out on her own. Searching. Exploring. Making her way in the world. Soon she forms an unlikely friendship with a colorful butterfly named Cee, who teaches Bella the importance of taking risks and other essential lessons--timeless laws of the jungle that you can apply to every aspect of your life: Life begins with courage. Smart is the new rich. Stumbling is a gift. What you seek lies within you. Believe in life: Always. and much more Whether you're an entrepreneur with a dream, a manager on the rise, or a leader with a vision, this charming and insightful parable will guide you on your way through life's greatest journey. This is the way to Risk to Succeed. Includes a self-revealing Mirror Test, morning writing exercises, and the 4 Questions to Jungle Life. Praise for Risk to Succeed I read it in one sitting and couldn't put it down! There's not a person out there in any walk of life who won't benefit from the message of Risk to Succeed. She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. **Quick Search** Search Featured Property RE/MAX Chay Realty Inc.
