

## The Best Finish: Adopting a Retired Racing Greyhound

Retired racing Greyhounds are quickly becoming one of America's most popular pets, with tens of thousands of Greyhounds being adopted from the tracks and adoption groups each year. Every retired racing Greyhound has a unique and sometimes complicated past, and this book offers a straightforward, comprehensive guide to the adoption process and the special care involved with this extraordinary dogs adjustment to pet life. Retired racing Greyhounds have different needs from most dogs, and *The Best Finish* provides all the information you will need on issues that apply specifically to retired racers such as: Common medical problems, socialising with people and other dogs, adjusting to life in their new homes, interaction with children, exercise and physical activity, feeding and special dietary requirements. This book offers advice from experts and firsthand interviews with the most prominent people involved in all aspects of retired racing Greyhounds. *The Best Finish* also provides vivid personal stories and profiles on distinctive Greyhound adoption methods and the people involved. Written by an author who has personally fostered Greyhounds for more than a decade, this book confirms that adoption is a Greyhounds best finish.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. **Why use a "Green Realtor"** There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the

potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
