

## The Altered Boys Club

Synchronicity. Not only does award-winning investigative journalist Sebastian Stephens believe in it, synchronicity guides his life. Stephens is teased throughout the day by the spirit of an Indian boy until a Native American apparition asks him to save her boy. Stephens suspects she must have something to do with the spirit-boy, but he doesn't comprehend his mission until he arrives in New York City. There at the invitation of his friend Detective Cliff Nolte, synchronicity points the way. Since their last collaboration, Nolte has been appointed head of a special task for investigating a suspected ring of pedophiles that includes a number of Catholic priests in Brooklyn. He happens to invite his friend Sebastian to come from New Orleans to the NYC as a consultant right before Nolte is notified about the discovery of the body of a young American Indian boy near a charity donation bin. The cause of death is apparent drug overdose, but there are too many unanswered questions to simply close the case. The next day when Stephens is taken to the morgue, he recognizes boy from his dream. Clearly, the death of this boy is linked to both the apparition as well as Nolte's task force. The synchronicity is much too strong to be otherwise. The other connections the two men uncover will leave Stephens staring into an abyss he never suspected existed.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her

clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
