

## The Crystal Egg

The Crystal Egg is a science fiction short story. Starts off with an old shop owner owning this extremely attractive and mysterious crystal egg. Two men come in to buy it but the shop owner first asks an absurd price, and after the customers accept it, refuses to sell it at all. The man then becomes obsessed with this egg and studies it day and night. Then peculiar things start happening. The egg lets off a very bright glow, first thought to be refracting the sun's rays, but it then does this in the middle of the night. After studying it closely the shopkeeper notices a foreign land inside the crystal and later absurd, alien, never before seen creatures inside. He hides it from his family and customers, the two men keep calling and inquiring about the egg as well. He only shares his finds with one man, Mr. Wace. He hides the egg in his office to hide from his family who do not understand why he won't sell it. The two men then notice these strange creatures, now thought as Martians, coming closer and closer inside their crystal egg. They then try to make contact with the Martians by yelling. The creatures hear the noise but find nothing beyond further inspection. Later on the shopkeeper is found dead with the egg in his hands, and a smile on his face. The family finds him and sells the egg. Mr. Wace doesn't find out until it's too late. The egg has been sold to the two men and its mysteries left unsolved. Mr. Wace believes it is a window to the planet Mars.

Home Home Search Mortgage Information Buyer Information Sellers information Contact Me Green Blog Events Calendar Use our Mapping Search to find listings in a certain area. She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of

averages, some will sell.â€• Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a â€œGreen Realtorâ€• There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
