

The Divide

The Divides story takes place in a nearly unlivable world. After Earth faces the biggest disaster in human history, classes become separated by those fortunate enough to find shelter from the fallout and those who have to face their harsh reality head-on. When Alex and Sarah meet for a routine mission, all of that changes, however. Two people from totally different worlds who have always been feet apart begin to see exactly what things are really like for those on the other side. Throughout their journey, more challenges than they could possibly imagine will present themselves, but by the end of it, everything will change for them all. With themes of disaster, human trafficking, loss, complete desperation, and a love that could never be, The Divide makes for a very serious journey that can seem hopeless, but by the time youre done reading, youll be glad you visited a dystopian world thats like nothing youve ever seen before.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
