

Above (Volume 1)

When 17 year-old Callie's life is suddenly cut short, she wakes up ABOVE, and soon discovers it's not exactly what she expected.

Still reeling from the fact that she is, in fact, no longer living, Callie learns that she's also part of a select group of recently-passed teens fated to become Guardians. Not only does Callie have to go back to school - Guardian school - her dead grandmother happens to be the headmistress and the curriculum includes revisiting every mistake she's ever made. And since no one seems to want to give her a straight answer about anything -- including the mysterious empty room next to hers -- Callie comes to realize that life ABOVE is even more confusing than the life she just left behind. Callie must come to terms with her Watcher resisting her guidance, her feelings for Logan, a boy she's drawn to but who withholds from her, and the knowledge that she is a target for the evil that exists ABOVE. But her hardest lesson will be to understand that she has as much to give as she has to learn. Callie must choose to acknowledge and accept her gifts, embrace her fate, and become a Guardian who can make a difference that will impact the worlds below, ABOVE and beyond.

She has an interest in the environment and is passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle." "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the home's potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the

area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
