

## The Manual of Detection

An unlikely detective armed only with an umbrella and a singular handbook must solve a string of crimes committed in and through people's dreams. In an unnamed city slick with rain, Charles Unwin toils as a clerk at an imperious detective agency. His job: writing reports on cases solved by the palindromic Detective Travis Sivart. When Sivart goes missing and his supervisor is murdered, Unwin is promoted to detective, a rank for which he is woefully unprepared. His only guidance comes from his sleepy new assistant and the pithy yet profound Manual of Detection. Unwin mounts his search for Sivart but soon faces impossible questions: Why does the mummy at the Municipal Museum have modern-day dental work? Where have all the city's alarm clocks gone? Can the man with the blond beard really read his thoughts? Meanwhile, Unwin is framed for murder, pursued by goons, and confounded by a femme fatale. His only choice: to enter the dreams of a murdered man.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie," she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle." "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. **Why use a "Green Realtor"?** There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. **Quick Search Search Featured Property RE/MAX Chay Realty Inc.
