

Psychology for Teachers (Classic Reprint)

The present volume was written to meet the requirements of those who came to the author to receive aid in preparing themselves for the profession of teaching ;and the warm reception accorded it by teachers, both in England and in this country, proves that its publication has done much to popularize the study of Educational Psychology. In the treatment of the subject, no topic has been touched upon which has not been illustrated adequately by facts taken from experience ;and the whole trend of the work is toward the cultivation of right methods of instruction. There appears to have been ever present in the authors mind a desire to furnish aid to teachers in all matters relating to their professional work. In short, it would be difficult to overstate the practical value of the book, since it deals with the problems of school life in a manner calculated to develop interest and arouse enthusiasm. Although in no sense a compendium of the subject, it possesses the merit of stimulating thoughtful and correct views in regard to education ;and no better basis could be furnished for the discussion of the theory and practice of teaching than that which is herein set forth.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings. Barrie's Green Realtor Karen Fox has been selling real estate for over 23 years in the Barrie area. She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle" "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor" There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
