

The Zeta Disclosures

They're coming back. They've almost completed the preparations and prepared their vessels for the three month interstellar journey. However, when they arrive this time, human civilization will be shattered by their technology and understanding of the Cosmos, a million years beyond mankind's. The Earth's defense plan has been created and partially implemented by the twelve members of the Zeta Council. They're the only humans who know the whole truth and understand the potential devastation, that is, until Jack Brady stumbles upon one of the alien scout vehicles and three of its crew. Brady is a trained observer, a Senior Officer in the CIA's Directorate of Logistics. He knows what he saw, and so do his superiors. But Jack is no longer asking if UFOs and extraterrestrials exist. Now he's simply asking; why is the Government covering up their existence? And before he discovers the incredible truth, his search for the answer sweeps away his core beliefs, drives him to the edge of human perceptions, kills two of his best friends, and almost takes his own life. But, Jack has no intention of stopping until he finds out why the government must continue to cover up their existence, and the truth.

She has an interest in the environment and passionate about the community and how we are living on this planet. Sitting on the board of "Living Green" and the steering committee of "Transition Barrie", she is well advised about the concerns and problems facing residents. "I believe that I can bring a lot to the table in terms of our experience in the Barrie and surrounding area Real Estate market, our knowledge of the Community and our study of the Environment." An award winning Realtor and "Hall of Fame" award of excellence. "I will only take on the new business that I can handle." "I am not interested in stock piling listings with the hopes that, by the law of averages, some will sell." Karen is hard working, dedicated and determined to provide the best possible service to her clients and customers. Why use a "Green Realtor"? There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal criteria of location, size and functionality along with the home's potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the

area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
