

TROY ZANDER AND THE SIGN OF THE UNSEEN: ONLY WHEN YOU DIE TO YOUR FEARS WILL YOU RISE WITH YOUR TRUE POWER

One Boy. One Lord. One Sign Watch the book trailer at <http://m.youtube.com/watch?v=vmTO2hMfiWQ> No force is greater than the magic within You. In the not so distant future, when the earth is wasted and unable to sustain the human population, astronaut teams are selected to colonize seventeen potentially habitable planets. However, out of those seventeen, only four colonies are successfully established. Soon, after this, all life on earth is destroyed, under mysterious circumstances, leaving behind the people on those colonies as the last of all mankind. Over the course of the next fifty thousand years, these people evolve into four distinct races, called the Keplers, the Albeins, the Elveden and the Aureans. At the pinnacle of their civilizations, these four colonies are one day attacked and laid to waste by the most advanced and powerful alien race in the universe, known as the Volski, under the command of their Imperial Lord, Olsкуро. As the last of the human survivors flee for their lives from the Volski, a mysterious sign starts appearing to a Kepler boy, Troy Zander, guarding him and helping him fight back against the enemy, whilst holding magical secrets and the key to the boys past, his present and the future of the universe. Heroes are neither born nor created but resurrected.

Why use a "Green Realtor" There are already signs that in the near future energy costs will continue to rise. When shopping for a new home, it is imperative that buyers compare homes based on the normal

criteria of location, size and functionality along with the homes potential for energy efficiency by concentrating on insulation, type of windows, furnace, roof, age of the structure, type of wiring, type of plumbing, lot grading and the potential to grow your own food should you desire. We can make this process easier for you with our knowledge of the area builders over a long period of time and our training on efficiency and energy efficient products. We can point out periods of rapid growth when homes in our city were not well constructed and were rendered very poor on the scale of energy efficiency. We can point out builders that meet LEED standards or Green standards and have built to the highest levels of efficiency. Quick Search Search Featured Property RE/MAX Chay Realty Inc.
